OBJECTIVES/RATIONALE: The objective of the course is to integrate material learnt in prior thermo-fluid courses, and to provide students with an introduction to system-oriented design methods. The design, operation and performance of mechanical equipment commonly used in thermo-fluid systems will be reviewed. Methods in system simulation and optimization will be introduced. Prior courses in Thermodynamics, Fluid Mechanics and Heat Transfer are a prerequisite for this course.

LEARNING OUTCOMES: Upon successful completion of the course the students will be expected to have demonstrated the ability to:
1. Analyze fluid systems and design piping systems and select appropriate pumps.
2. Analyze and select heat exchangers for thermal systems.
3. Perform system analysis and obtain performance characteristics of common thermal systems.
4. Model and perform system simulation of thermal systems.
5. Optimize thermal system performance under different constraints.
6. Integrate exergy analysis into system performance.

INSTRUCTOR: Dr. C.Y. Ching
Office: JHE103
Phone: 905 525 9140 ext. 24998
email: chingcy@mcmaster.ca

LECTURES: Tuesday 12:30PM – 1:20PM
            Wednesday 12:30PM – 1:20PM
            Friday 12:30PM – 1:20PM

TUTORIAL: Tuesday 11:30AM – 12:20PM

OFFICE HOURS: Tuesday and Wednesday 1:30PM – 2:30PM.

HOMEWORK
Homework problem-solving is an essential element of this course. Individual work is required on all problems. Over the course of the semester, 10 homework sets are planned. Homework is due by 11:59 p.m. on the date assigned. Late submissions will not be accepted.

TESTS AND EXAMINATIONS
There will be two mid term tests and a final examination. The material to be covered in each test and exam will be cumulative.
### GRADING SYSTEM

Final grades will be determined by the following weighting of homework, tests and final exam.

<table>
<thead>
<tr>
<th>Component</th>
<th>Weight (%)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Homework</td>
<td>10%</td>
</tr>
<tr>
<td>Test I</td>
<td>20%</td>
</tr>
<tr>
<td>Test II</td>
<td>20%</td>
</tr>
<tr>
<td>Final Exam</td>
<td>50%</td>
</tr>
</tbody>
</table>

**Final Grade** 100%
Course Outline

1. Review of Piping Systems, Pumps and Compressors
   1.1 Fundamental Equations, Friction Factors, Head Losses
   1.2 Valves and Fittings
   1.3 Types of Pumps and Pump Characteristics
   1.4 Cavitation and Net Positive Suction Head
   1.5 Pump-System Operation

2. Heat Exchangers
   2.1 Review of Heat Transfer
   2.2 Types of Heat Exchangers
   2.3 Analysis of Heat Exchangers

3. Power Generation Systems
   3.1 Review of Thermodynamics
   3.2 Vapor Power Systems
   3.3 Gas Power Systems
   3.4 Other Power Systems

4. Exergy Analysis
   4.1 Exergy of Systems
   4.2 Closed and Open System Exergy Balance
   4.3 Exergetic Efficiency
   4.4 Thermoeconomics

5. Thermal Systems Design
   5.1 The Design Process
   5.2 Life-Cycle Design
   5.3 Thermal System Design Aspects
   5.4 Environmental, Safety and Reliability Aspects

6. System Simulation and Optimization
   6.1 Modeling Thermal Equipment
   6.2 Description of System Simulation
   6.3 Methods of Simulation
   6.4 Simulation of Thermal Systems
   6.5 Optimization Procedures

7. Design Optimization and System Performance Evaluation
   7.1 Thermodynamic Optimization
   7.2 Economic Optimization
   7.3 Design Evaluation
   7.4 Performance Evaluation

Suggested Texts

Introduction to Fluid Mechanics, Fox, R.W., McDonald, A.T and Pritchard, P.J.
Introduction to Heat Transfer, Incropera, F.P., Dewitt, D.P.
Design and Optimization of Thermal Systems, Jaluria, Y.
Thermal Design and Optimization, Bejan, A., Tsatsaronis, G. and Moran, M., J.
Design of Fluid Thermal Systems, Janna, W.S.
Design of Thermal Systems, Stoecker, W.F.
ME 4V03 – THERMO-FLUIDS SYSTEMS DESIGN AND ANALYSIS

NOTES ON HOMEWORK SOLUTIONS

Homework policies/procedures

1. Homework is due by 11:59PM on the date assigned. Homework must be submitted online to AVENUE. Late submissions will not be accepted.

2. Solutions to the Homework problems will posted on the course site on AVENUE.

3. Performance on homework assignments comprise 10% of a student’s final grade; consequently individual work is required on all homework problems. Students are encouraged to discuss with one another the general principles involved in the homework sets, but solutions to each problem must be attempted individually. Duplicate solutions indicating copying among students will be considered cheating and will be dealt with strictly.

Homework format

1. A legible PDF of the solutions must be submitted. Make sure your name, MAC ID and student number is on the first page of the solutions.

2. Start each problem on a new page.

3. Clearly label each step of the solution (KNOWN, FIND, SCHEMATIC, ASSUMPTIONS, ANALYSIS etc.)

4. Develop the analysis as far as possible before substituting numerical values. If possible, give the answer algebraically before computing the final numerical answer.

5. Clearly indicate your final answer. Be sure to include appropriate units.

6. Attach a listing of any computer program(s) used in the solution.

Homework grading

Most problems will be graded on a 10-point scale, with points awarded in the following typical distribution.

<table>
<thead>
<tr>
<th>Description</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>Use of proper format, steps clearly labeled</td>
<td>1</td>
</tr>

</table>
ACADEMIC INTEGRITY
You are expected to exhibit honesty and use ethical behaviour in all aspects of the learning process. Academic credentials you earn are rooted in principles of honesty and academic integrity. **It is your responsibility to understand what constitutes academic dishonesty.**

Academic dishonesty is to knowingly act or fail to act in a way that results or could result in unearned academic credit or advantage. This behaviour can result in serious consequences, e.g. the grade of zero on an assignment, loss of credit with a notation on the transcript (notation reads: “Grade of F assigned for academic dishonesty”), and/or suspension or expulsion from the university. For information on the various types of academic dishonesty please refer to the [Academic Integrity Policy](https://secretariat.mcmaster.ca/university-policies-procedures-guidelines/), located at https://secretariat.mcmaster.ca/university-policies-procedures-guidelines/

The following illustrates only three forms of academic dishonesty:
- plagiarism, e.g. the submission of work that is not one’s own or for which other credit has been obtained.
- improper collaboration in group work.
- copying or using unauthorized aids in tests and examinations.

AUTHENTICITY / PLAGIARISM DETECTION
**Some courses may** use a web-based service (Turnitin.com) to reveal authenticity and ownership of student submitted work. For courses using such software, students will be expected to submit their work electronically either directly to Turnitin.com or via an online learning platform (e.g. Avenue to Learn, etc.) using plagiarism detection (a service supported by Turnitin.com) so it can be checked for academic dishonesty.

Students who do not wish their work to be submitted through the plagiarism detection software must inform the Instructor before the assignment is due. No penalty will be assigned to a student who does not submit work to the plagiarism detection software. **All submitted work is subject to normal verification that standards of academic integrity have been upheld** (e.g., on-line search, other software, etc.). For more details about McMaster’s use of Turnitin.com please go to [www.mcmaster.ca/academicintegrity](http://www.mcmaster.ca/academicintegrity).

COURSES WITH AN ON-LINE ELEMENT
**Some courses may** use on-line elements (e.g. e-mail, Avenue to Learn, LearnLink, web pages, capa, Moodle, ThinkingCap, etc.). Students should be aware that, when they access the electronic components of a course using these elements, private information such as first and last names, user names for the McMaster e-mail accounts, and program affiliation may become apparent to all other students in the same course. The available information is dependent on the technology used. Continuation in a course that uses on-line elements will be deemed consent to this disclosure. If you have any questions or concerns about such disclosure please discuss this with the course instructor.

ONLINE PROCTORING
**Some courses may** use online proctoring software for tests and exams. This software may require students to turn on their video camera, present identification, monitor and record their computer activities, and/or lock/restrict their browser or other applications/software during tests or exams. This software may be required to be installed before the test/exam begins.
As a McMaster student, you have the right to experience, and the responsibility to demonstrate, respectful and dignified interactions within all of our living, learning and working communities. These expectations are described in the Code of Student Rights & Responsibilities (the “Code”). All students share the responsibility of maintaining a positive environment for the academic and personal growth of all McMaster community members, whether in person or online.

It is essential that students be mindful of their interactions online, as the Code remains in effect in virtual learning environments. The Code applies to any interactions that adversely affect, disrupt, or interfere with reasonable participation in University activities. Student disruptions or behaviours that interfere with university functions on online platforms (e.g. use of Avenue 2 Learn, WebEx or Zoom for delivery), will be taken very seriously and will be investigated. Outcomes may include restriction or removal of the involved students’ access to these platforms.

ACADEMIC ACCOMMODATION OF STUDENTS WITH DISABILITIES

Students with disabilities who require academic accommodation must contact Student Accessibility Services (SAS) at 905-525-9140 ext. 28652 or sas@mcmaster.ca to make arrangements with a Program Coordinator. For further information, consult McMaster University’s Academic Accommodation of Students with Disabilities policy.

REQUESTS FOR RELIEF FOR MISSED ACADEMIC TERM WORK

In the event of an absence for medical or other reasons, students should review and follow the Policy on Requests for Relief for Missed Academic Term Work.3

ACADEMIC ACCOMMODATION FOR RELIGIOUS, INDIGENOUS OR SPIRITUAL OBSERVANCES (RISO)

Students requiring academic accommodation based on religious, indigenous or spiritual observances should follow the procedures set out in the RISO policy. Students should submit their request to their Faculty Office normally within 10 working days of the beginning of term in which they anticipate a need for accommodation or to the Registrar's Office prior to their examinations. Students should also contact their instructors as soon as possible to make alternative arrangements for classes, assignments, and tests.

COPYRIGHT AND RECORDING

Students are advised that lectures, demonstrations, performances, and any other course material provided by an instructor include copyright protected works. The Copyright Act and copyright law protect every original literary, dramatic, musical and artistic work, including lectures by University instructors.

The recording of lectures, tutorials, or other methods of instruction may occur during a course. Recording may be done by either the instructor for the purpose of authorized distribution, or by a student for the purpose of personal study. Students should be aware that their voice and/or image may be recorded by others during the class. Please speak with the instructor if this is a concern for you.

EXTREME CIRCUMSTANCES

The University reserves the right to change the dates and deadlines for any or all courses in extreme circumstances (e.g., severe weather, labour disruptions, etc.). Changes will be communicated through regular McMaster
communication channels, such as McMaster Daily News, Avenue to Learn and/or McMaster email.
Student Wellness Centre
On-Campus Support for Medical and Mental Health Concerns. Doctors and Counsellors available. Located in PGCL, 2nd Floor.
Mon-Fri 9AM-5PM  905-525-9140 ext. 27700
https://wellness.mcmaster.ca/contact-us/

Main St. West Urgent Care Centre
For immediate health concerns that do not require the emergency room.

MSU PEER SUPPORT SERVICES

MSU Maccess
Maccess is a service that aims to build and maintain a campus that celebrates, advocates, and ensures inclusivity in the area of disability. A central aspect to Maccess is the provision of peer support by trained volunteers with lived experiences with disability such as chronic illness, mental illness, mental health concerns, neurodivergence, and additional identities.

Student Health Education Centre
SHEC is a peer-run health promotion, education, and referral service for McMaster University students. SHEC focuses on engaging with students about health-related issues through performances, peer support, fundraisers, and events. The service offers peer support, anonymous and confidential pregnancy testing, a resource library, condoms, lubricant, and menstrual products. SHEC's space is located in MUSC 202.

Women + Gender Equity Network
WGEM is a service that caters to women, transfolk, people who identify outside the gender binary, and all survivors of sexual assault. WGEN provides a safe(r) space and resource library on campus in MUSC 204. Volunteers in the space offer peer support and the service also runs a support group for survivors of domestic and intimate partner violence.

Pride Community Centre
The Pride Community Centre is a service of the McMaster Students Union. We provide a contact point for McMaster students that may identify as gay, lesbian, bisexual, transgender, queer, and/or any of the other diverse identities that make up our community. We offer educational programming and access to resources of interest, as well as peer support and a physical space for students to meet and socialize with each other. As advocates for gender & sexual diversity, the PCC's mandate upholds that LGBTQ+ students are entitled to a safe and supportive campus, absent of homophobia and transphobia, where the expression of one's gender & sexual identity is welcomed and respected.
