

Eng Phys 707 Nuclear Fuel Cycle and Radioactive Waste Management

Graduate Studies Fall 2023 Course Outline

CALENDAR/COURSE DESCRIPTION

Include the Calendar Description or a brief Course Description of the course.

9 am - 12 pm: Wednesday (mainly 10 am - 12 pm)

PRE-REQUISITES AND ANTI-REQUISITES

Prerequisite(s): Registration in the final level of an Engineering Physics program

Antirequisite(s): NA

INSTRUCTOR OFFICE HOURS AND CONTACT INFORMATION

Dr. Shinya Nagasaki

NRB 105 nagasas@mcmaster.ca ext. 27090

Office Hours:

By appointment

TEACHING ASSISTANT OFFICE HOURS AND CONTACT INFORMATION

NA

COURSE WEBSITE/ALTERNATE METHODS OF COMMUNICATION

http://avenue.mcmaster.ca/

All communication will be done through A2L. Periodical check of A2L is a responsibility of students.

COURSE INTENDED LEARNING OUTCOMES

A successful student will be able to do the following by the end of the course:

- Understand the fundamental science and engineering on nuclear fuel cycle and radioactive waste management.
- Consider the relationship of technology on nuclear fuel cycle and radioactive waste management with the pubic and society.

MATERIALS AND FEES

Required Texts:

Materials students are recommended to study will be posted in Avenue to Learn.

Calculator:

Only the McMaster Standard Calculator will be permitted in tests and examinations. This is available at the Campus Store.

Other Materials for your further study:

M. Benedict, T. H. Pigford, H. Levi, Nuclear Chemical Engineering, Mcgraw-Hill (1981).

COURSE FORMAT AND EXPECTATIONS

- 1. One class (9am 12pm, but usually 10am 12pm) per week
- 2. Special Talk.
- 3. Two assignments
- 4. Inquiry learning study

COURSE SCHEDULE

Schedule is tentative. The schedule will change (especially, special talk by Dr. Yang).

September 6	Guidance, 1. Review of nuclear fuel cycle	
13	2. Nuclear fuel resources, mining, and milling	
20	3. Conversion and enrichment	
27	Use for IL studies (no class)	
October 4	IL progress presentation (from 9 am)	
11	Mid-term Recess	
18	4. Fuel design and fabrication	
25	5. Reprocessing and recycling	
November 1	6. Electric utility and nuclear power economics	
8	7. Radioactive waste management	
15	Special talk (Prof. Peter Vilks (CNL))	
22	IL Presentation (by around 12:30 pm)	
29	Special talk (Dr. Tammy Yang (NWMO))	
December 6	Reserve for back-up (no class)	

ASSESSMENT

Component	Due Date	Weight
Assignments (2 assignment	rs)	20 % (10 % per assignment)
Special Talks (attendance)		20 %
IL progress presentation		10 %
IL final presentation		50 %
Total		100%

Two IL presentations are mandatory.

Two Special talk: Attendance is mandatory.

Assignments:

Assignments will be posted on Avenue to Learn after notification during the classes. Assignments

received after the deadline will not be graded.

ACCREDITATION LEARNING OUTCOMES

NA

EQUITY, DIVERSITY, AND INCLUSION

Every registered student belongs in this course. Diversity of backgrounds and experiences is expected and welcome. You can expect your Instructor to be respectful of this diversity in all aspects of the course, and the same is expected of you.

The Department of Engineering Physics is committed to creating an environment in which students of all genders, cultures, ethnicities, races, sexual orientations, abilities, and socioeconomic backgrounds have equal access to education and are welcomed and treated fairly. If you have any concerns regarding inclusion in our Department, in particular if you or one of your peers is experiencing harassment or discrimination, you are encouraged to contact the Chair, Associate Undergraduate Chair, Academic Advisor or to contact the Equity and Inclusion Office.

PHYSICAL AND MENTAL HEALTH

For a list of McMaster University's resources, please refer to the Student Wellness Centre.

ACADEMIC INTEGRITY

You are expected to exhibit honesty and use ethical behaviour in all aspects of the learning process. Academic credentials you earn are rooted in principles of honesty and academic integrity. It is your responsibility to understand what constitutes academic dishonesty.

Academic dishonesty is to knowingly act or fail to act in a way that results or could result in unearned academic credit or advantage. This behaviour can result in serious consequences, e.g. the grade of zero on an assignment, loss of credit with a notation on the transcript (notation reads: "Grade of F assigned for academic dishonesty"), and/or suspension or expulsion from the university. For information on the various types of academic dishonesty please refer to the <u>Academic Integrity Policy</u>, located at https://secretariat.mcmaster.ca/university-policies-procedures-guidelines/

The following illustrates only three forms of academic dishonesty:

- 1. plagiarism, e.g. the submission of work that is not one's own or for which other credit has been obtained.
- 2. improper collaboration in group work.
- 3. copying or using unauthorized aids in tests and examinations.

COURSES WITH AN ON-LINE ELEMENT

McMaster is committed to an inclusive and respectful community. These principles and expectations extend to online activities including electronic chat groups, video calls and other learning platforms.

Some courses may use on-line elements (e.g. e-mail, Avenue to Learn (A2L), LearnLink, web pages, capa, Moodle, ThinkingCap, etc.). Students should be aware that, when they access the electronic components of a course using these elements, private information such as first and last names, user names for the McMaster e-mail accounts, and program affiliation may become apparent to all other students in the same course. The available information is dependent

on the technology used. Continuation in a course that uses on-line elements will be deemed consent to this disclosure. If you have any questions or concerns about such disclosure, please discuss this with the course instructor.

CONDUCT EXPECTATIONS

As a McMaster student, you have the right to experience, and the responsibility to demonstrate, respectful and dignified interactions within all of our living, learning and working communities. These expectations are described in the <u>Code of Student Rights & Responsibilities</u> (the "Code"). All students share the responsibility of maintaining a positive environment for the academic and personal growth of all McMaster community members, **whether in person or online**.

It is essential that students be mindful of their interactions online, as the Code remains in effect in virtual learning environments. The Code applies to any interactions that adversely affect, disrupt, or interfere with reasonable participation in University activities. Student disruptions or behaviours that interfere with university functions on online platforms (e.g. use of Avenue 2 Learn, WebEx or Zoom for delivery), will be taken very seriously and will be investigated. Outcomes may include restriction or removal of the involved students' access to these platforms.

ACADEMIC ACCOMMODATION OF STUDENTS WITH DISABILITIES

Students with disabilities who require academic accommodation must contact <u>Student Accessibility Services</u> (SAS) at 905-525-9140 ext. 28652 or <u>sas@mcmaster.ca</u> to make arrangements with a Program Coordinator. For further information, consult McMaster University's <u>Academic Accommodation of Students with Disabilities</u> policy.

COURSE POLICY ON MISSED WORK, EXTENSIONS, AND LATE PENALTIES

- 1. It is the students' responsibility to regularly check the course webpage (A2L) for updates and announcements.
- 2. Delay submission of assignment is not marked.
- 3. All attendance and presentations of IL are mandatory.

SUBMISSION OF REQUEST FOR RELIEF FOR MISSED ACADEMIC WORK

In the event of an absence for medical or other reasons, students should review and follow the Academic Regulation in the Undergraduate Calendar "Requests for Relief for Missed Academic Term Work".

- 1. Relief for missed academic work worth less than 25% of the final grade resulting from medical or personal situations lasting up to three calendar days:
 - Use the <u>McMaster Student Absence Form</u> (MSAF) on-line self-reporting tool. No further documentation is required.
 - Students may submit requests for relief using the MSAF once per term.
 - An automated email will be sent to the course instructor, who will determine the appropriate relief. Students must immediately follow up with their instructors. Failure to do so may negate the opportunity for relief.
 - The MSAF cannot be used to meet a religious obligation or to celebrate an important religious holiday.
 - The MSAF cannot be used for academic work that has already been completed attempted.
 - An MSAF applies only to work that is due within the period for which the MSAF applies, i.e. the 3-day period that is specified in the MSAF; however, all work due in that period can be covered by one MSAF.
 - The MSAF cannot be used to apply for relief for any final examination or its equivalent. See Petitions for

Special Consideration above.

- For medical or personal situations lasting more than three calendar days, and/or for missed academic work worth 25% or more of the final grade, and/or for any request for relief in a term where the MSAF has been used previously in that term:
 - Students must report to their Faculty Office to discuss their situation and will be required to provide appropriate supporting documentation.
 - If warranted, the Faculty Office will approve the absence, and the instructor will determine appropriate relief.

ACADEMIC ACCOMMODATION FOR RELIGIOUS, INDIGENOUS OR SPIRITUAL OBSERVANCES (RISO)

Students requiring academic accommodation based on religious, indigenous or spiritual observances should follow the procedures set out in the RISO policy. Students should submit their request to their Faculty Office *normally within 10 working days* of the beginning of term in which they anticipate a need for accommodation <u>or</u> to the Registrar's Office prior to their examinations. Students should also contact their instructors as soon as possible to make alternative arrangements for classes, assignments, and tests.

COPYRIGHT AND RECORDING

Students are advised that lectures, demonstrations, performances, and any other course material provided by an instructor include copyright protected works. The Copyright Act and copyright law protect every original literary, dramatic, musical and artistic work, **including lectures** by University instructors

The recording of lectures, tutorials, or other methods of instruction may occur during a course. Recording may be done by either the instructor for the purpose of authorized distribution, or by a student for the purpose of personal study. Students should be aware that their voice and/or image may be recorded by others during the class. Please speak with the instructor if this is a concern for you.

EXTREME CIRCUMSTANCES

The University reserves the right to change the dates and deadlines for any or all courses in extreme circumstances (e.g., severe weather, labour disruptions, etc.). Changes will be communicated through regular McMaster communication channels, such as McMaster Daily News, A2L and/or McMaster email.
