ENGPHYS 3PD4
Photonic Devices
Undergraduate Studies
Winter 2024
Course Outline

CALENDAR/COURSE DESCRIPTION
This course covers the theory, design and operation of photonic devices such as waveguides, couplers, modulators, detectors and lasers, and their applications in integrated and fiber optical systems for communications, information processing and sensing.
Three lectures, one lab (three hours), second term

PRE-REQUISITES AND ANTI-REQUISITES
Prerequisite(s): One of ENGPHYS 3E03 or 3E04 or PHYSICS 3N03 or 3N04
Antirequisite(s): ENGPHYS 3PD3

INSTRUCTOR OFFICE HOURS AND CONTACT INFORMATION
Dr. Jon Bradley
JHE A413
jbradley@mcmaster.ca
ext. 24013
Office Hours: See course website

LAB SUPERVISOR OFFICE HOURS AND CONTACT INFORMATION
Mohammadreza Shahzadeh
BSB B102A
shahzm14@mcmaster.ca
905-525-9140
Office Hours: See course website

TEACHING ASSISTANT OFFICE HOURS AND CONTACT INFORMATION
Nilofar Majidian Taleghani
majidian@mcmaster.ca
Office Hours: See course website
Cameron Naraine
narainc@mcmaster.ca
Bruno Segat Frare
segatfrb@mcmaster.ca

COURSE WEBSITE/ALTERNATE METHODS OF COMMUNICATION
http://avenue.mcmaster.ca/
It is the student’s responsibility to regularly check the course web page (Avenue to Learn) for updates and announcements.

COURSE INTENDED LEARNING OUTCOMES
By the end of this course, students should be able to:
- Demonstrate fundamental knowledge related to photonic devices
- Understand the theory of planar, ridge and fiber-optical waveguides
• Understand the basic operation of passive photonic devices including splitters/combiners and cavities
• Understand the basic operation of active photonic devices including switches, modulators and photodetectors
• Experimentally characterize silicon passive and active integrated photonic devices using a fiber-optic probe station
• Demonstrate knowledge of applications of photonic integrated circuits and fiber-optic devices and systems

**MATERIALS AND FEES**

**Required Texts:**
N/A

**Recommended Additional Texts:**

**Calculator:**
Only the McMaster Standard Calculator will be permitted in tests and examinations. This is available at the Campus Store.

**Other Materials:**
MATLAB and Synopsis RSoft FemSIM

**COURSE FORMAT AND EXPECTATIONS**
The course is organized as follows:
• 3 classroom-based lectures per week
• Tutorials on photonic design (held during the regularly scheduled lecture time)
• 4 assignments
• 4 lab reports
• 1 team project including a presentation and design report

*Information about synchronous streaming methods and recorded content will be posted on Avenue to Learn. Specific details about the course format and expectations will be provided in the first lecture.*

**ACCREDITATION LEARNING OUTCOMES**

For more information on Accreditation, please visit: [https://www.engineerscanada.ca](https://www.engineerscanada.ca)

---

**EQUITY, DIVERSITY, AND INCLUSION**

Every registered student belongs in this course. Diversity of backgrounds and experiences is expected and welcome. You can expect your Instructor to be respectful of this diversity in all aspects of the course, and the same is expected of you.

The Department of Engineering Physics is committed to creating an environment in which students of all genders, cultures, ethnicities, races, sexual orientations, abilities, and socioeconomic backgrounds have equal access to education and are welcomed and treated fairly. If you have any concerns regarding inclusion in our Department, in particular if you or one of your peers is experiencing harassment or discrimination, you are encouraged to contact the Chair, Associate Undergraduate Chair, Academic Advisor or to contact the [Equity and Inclusion Office](https://www.mcmaster.ca/equityinclusion).

---

**PHYSICAL AND MENTAL HEALTH**

For a list of McMaster University’s resources, please refer to the [Student Wellness Centre](https://www.mcmaster.ca/studentwellness).

---

**ACADEMIC INTEGRITY**

You are expected to exhibit honesty and use ethical behaviour in all aspects of the learning process. Academic credentials you earn are rooted in principles of honesty and academic integrity. **It is your responsibility to understand what constitutes academic dishonesty.**

Academic dishonesty is to knowingly act or fail to act in a way that results or could result in unearned academic credit or advantage. This behaviour can result in serious consequences, e.g. the grade of zero on an assignment, loss of credit with a notation on the transcript (notation reads: “Grade of F assigned for academic dishonesty”), and/or suspension or expulsion from the university. For information on the various types of academic dishonesty please refer to the [Academic Integrity Policy](https://www.mcmaster.ca/university-policies), located at https://secretariat.mcmaster.ca/university-policies-procedures-guidelines/

The following illustrates only three forms of academic dishonesty:
1. plagiarism, e.g. the submission of work that is not one’s own or for which other credit has been obtained.
2. improper collaboration in group work.
3. copying or using unauthorized aids in tests and examinations.

---

**AUTHENTICITY / PLAGIARISM DETECTION**

Some courses may use a web-based service (Turnitin.com) to reveal authenticity and ownership of student submitted work. For courses using such software, students will be expected to submit their work electronically either directly to Turnitin.com or via an online learning platform (e.g. A2L, etc.) using plagiarism detection (a service supported by Turnitin.com) so it can be checked for academic dishonesty.

Students who do not wish their work to be submitted through the plagiarism detection software must inform the Instructor before the assignment is due. No penalty will be assigned to a student who does not submit work to the plagiarism detection software. **All submitted work is subject to normal verification that standards of academic integrity have been upheld** (e.g., on-line search, other software, etc.). For more details about McMaster’s use of Turnitin.com please go to [www.mcmaster.ca/academicintegrity](http://www.mcmaster.ca/academicintegrity).
COURSES WITH AN ON-LINE ELEMENT

McMaster is committed to an inclusive and respectful community. These principles and expectations extend to online activities including electronic chat groups, video calls and other learning platforms.

Some courses may use on-line elements (e.g. e-mail, Avenue to Learn (A2L), LearnLink, web pages, capa, Moodle, ThinkingCap, etc.). Students should be aware that, when they access the electronic components of a course using these elements, private information such as first and last names, user names for the McMaster e-mail accounts, and program affiliation may become apparent to all other students in the same course. The available information is dependent on the technology used. Continuation in a course that uses on-line elements will be deemed consent to this disclosure. If you have any questions or concerns about such disclosure, please discuss this with the course instructor.

CONDUCT EXPECTATIONS

As a McMaster student, you have the right to experience, and the responsibility to demonstrate, respectful and dignified interactions within all of our living, learning and working communities. These expectations are described in the Code of Student Rights & Responsibilities (the “Code”). All students share the responsibility of maintaining a positive environment for the academic and personal growth of all McMaster community members, whether in person or online.

It is essential that students be mindful of their interactions online, as the Code remains in effect in virtual learning environments. The Code applies to any interactions that adversely affect, disrupt, or interfere with reasonable participation in University activities. Student disruptions or behaviours that interfere with university functions on online platforms (e.g. use of Avenue 2 Learn, WebEx or Zoom for delivery), will be taken very seriously and will be investigated. Outcomes may include restriction or removal of the involved students’ access to these platforms.

ACADEMIC ACCOMMODATION OF STUDENTS WITH DISABILITIES

Students with disabilities who require academic accommodation must contact Student Accessibility Services (SAS) at 905-525-9140 ext. 28652 or sas@mcmaster.ca to make arrangements with a Program Coordinator. For further information, consult McMaster University’s Academic Accommodation of Students with Disabilities policy.

COURSE POLICY ON MISSED WORK, EXTENSIONS, AND LATE PENALTIES

1. It is the students’ responsibility to regularly check the course webpage (Avenue to Learn) for updates and announcements.
2. Missed work and late penalties:
   - A McMaster Student Absence Form (MSAF, https://www.mcmaster.ca/msaf/) must be submitted to the course instructor (Jon Bradley, jbradley@mcmaster.ca) not to the TA, for all missed work, otherwise a late penalty of -5%/day for late assignments and lab reports up to a maximum of -50% will be applied. The MSAF must normally be submitted within 2 WORKING DAYS of the missed work. If an MSAF is submitted, 1 extra week will be given from the regular assignment or lab report due date.
   - All assignments and lab reports must be completed. A grade of zero will be given for any incomplete assignment or lab report.

SUBMISSION OF REQUEST FOR RELIEF FOR MISSED ACADEMIC WORK
In the event of an absence for medical or other reasons, students should review and follow the Academic Regulation in the Undergraduate Calendar “Requests for Relief for Missed Academic Term Work”.

1. Relief for missed academic work worth less than 25% of the final grade resulting from medical or personal situations lasting up to three calendar days:

   - Use the McMaster Student Absence Form (MSAF) on-line self-reporting tool. No further documentation is required.
   - Students may submit requests for relief using the MSAF once per term.
   - An automated email will be sent to the course instructor, who will determine the appropriate relief. Students must immediately follow up with their instructors. Failure to do so may negate the opportunity for relief.
   - The MSAF cannot be used to meet a religious obligation or to celebrate an important religious holiday.
   - The MSAF cannot be used for academic work that has already been completed attempted.
   - An MSAF applies only to work that is due within the period for which the MSAF applies, i.e. the 3-day period that is specified in the MSAF; however, all work due in that period can be covered by one MSAF.
   - The MSAF cannot be used to apply for relief for any final examination or its equivalent. See Petitions for Special Consideration above.

2. For medical or personal situations lasting more than three calendar days, and/or for missed academic work worth 25% or more of the final grade, and/or for any request for relief in a term where the MSAF has been used previously in that term:

   - Students must report to their Faculty Office to discuss their situation and will be required to provide appropriate supporting documentation.
   - If warranted, the Faculty Office will approve the absence, and the instructor will determine appropriate relief.

**ACADEMIC ACCOMMODATION FOR RELIGIOUS, INDIGENOUS OR SPIRITUAL OBSERVANCES (RISO)**

Students requiring academic accommodation based on religious, indigenous or spiritual observances should follow the procedures set out in the RISO policy. Students should submit their request to their Faculty Office normally within 10 working days of the beginning of term in which they anticipate a need for accommodation or to the Registrar’s Office prior to their examinations. Students should also contact their instructors as soon as possible to make alternative arrangements for classes, assignments, and tests.

**COPYRIGHT AND RECORDING**

Students are advised that lectures, demonstrations, performances, and any other course material provided by an instructor include copyright protected works. The Copyright Act and copyright law protect every original literary, dramatic, musical and artistic work, including lectures by University instructors.

The recording of lectures, tutorials, or other methods of instruction may occur during a course. Recording may be done by either the instructor for the purpose of authorized distribution, or by a student for the purpose of personal study. Students should be aware that their voice and/or image may be recorded by others during the class. Please speak with the instructor if this is a concern for you.

**EXTREME CIRCUMSTANCES**

The University reserves the right to change the dates and deadlines for any or all courses in extreme circumstances (e.g., severe weather, labour disruptions, etc.). Changes will be communicated through regular McMaster communication channels, such as McMaster Daily News, A2L and/or McMaster email.
