# MECHATRONICS ENGINEERING

## **BACHELOR OF ENGINEERING**

Mechatronics Engineering is a modern discipline that transcends the boundaries between Embedded Systems, Mechanical, Electrical, and Computer Engineering. The demands of current and future technologies requires engineers that have interdisciplinary skills. The breadth of education required by Mechatronics engineers will not only provide such skills in the short term, but will enable them in the long term to effectively adapt to rapidly shifting technologies.

#### **Potential Employers**

- AMD
- Geotab Inc.
- Canadian
- Honda Canada
- Space Agency
- Intel Corp.
- Ericsson Inc.
- L3 Harris
- Evertz
- Magna
- General Motors
- Stackpole

#### **Potential Careers**

- ASIC Design Engineering Co-op
- Automation Intern
- Compliance Engineer Co-op
- Embedded System Designer
- Firmware Engineering Co-op
- Junior Controls Specialist
- Power-train Engineering Intern
- Robotics Developer
- Signal Integrity Co-op
- Systems Engineering Student

#### **Average Salary**

All work term opportunities must be compensated by your employer. Compensation for work terms varies widely depending on your employer, industry of employment, program of study, year of study, and prior work experience.

In 2022/2023, the average hourly wage for undergraduate co-op students was **\$23.00 per hour**. The wage range for students was between \$16.00 to \$60.00 per hour.

terms available

### How Do Employers Get Involved On Campus?

- Engineering Networking Nights
- Hosting Career Development
   Workshops
- Involving in organizing capstone projects, hackathons, or research projects
- McMaster Career Fair
- Posting positions on Oscarplus (Job Board)

**ENGINEERING CO-OP & CAREER SERVICES** 

Engineering Co-op & Career Services (ECCS) connects students with employers, offers career development tools and resources, and provides opportunities for students to gain employment experience.

We understand that every student is different; your career journey is shaped by the many experiences you have. Engineering Co-op & Career Services is here to prepare you for your future. Our approach allows you to have the flexibility to make your own decisions and choices, with the support of our team and subject-matter experts. We are here to guide, support, coach and offer expertise, resources and options.

Our program is optional, flexible and accessible for all.

- Co-op is available in all degree options.
- A minimum of 12 months of relevant work experience is required to receive the co- op designation on your degree.
- For maximum flexibility, options include:
  - 4-month summer work-terms.
  - 8-month to 16-month continuous a-terms

#### **Career Support & Skill Development**

From career support to skill development, ECCS offers a wide range of services available to all students registered in the Faculty of Engineering. We believe in integrating our services and taking an educative approach to ensure our students get the best out of our services:

- Employment Preparation and Career Readiness
- Career Educators for each program
- 1:1 appointments and job search support
- Professional & career development workshops
- On-the-job check-ins and work term reflections
- Emphasis on the lifelong process, skill development, and professional growth

Of students felt their company provided them with a **diverse**, **ethical**, **& equitable** work environment

96%

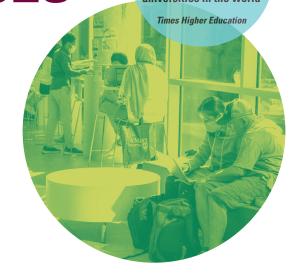

Of students felt their company provided them with a **rewarding work** environment

Ranked among the

**TOP 85** 

universities in the world

#### **Companies**

Faculty of Engineering co-op students undertake work terms with leading companies across the globe, including:

Aecon Group Inc.

ArcelorMittal Dofasco
BlackBerry
GE Canada
Celestica
General Motors
Chrysler
GIBC
John Deere

Corporation Rockwell Automation
Corporation Maple Leaf Stackpole International
Foods Stem Cell Technologies

#### **Statistics**

- McMaster Engineering is the second largest co-op program in Ontario, Canada.
- In 2022/2023, over 2500 undergraduate and graduate students completed over 4000 co-op work terms across the globe.
