

SOFTWARE ENGINEERING

BACHELOR OF ENGINEERING

Computing is used to solve problems, manage information, create smart technologies, explore the world, and connect to other people. Software engineers master the fundamentals of engineering like their colleagues, but specialize in the design and development of computer systems and software. McMaster's Software Engineering program is unique in that it provides students with a solid grounding in software development for supporting engineering applications and for controlling physical devices.

Potential Employers

- Amazon
- AMD
- CGI
- Evertz
- Geotab Inc.
- IBM Canada
- Intact Financial
- RBC
- Rogers
- TD Bank
- Tuscows Inc.
- Westinghouse

ENGINEERING CO-OP & CAREER SERVICES

Ranked among the

TOP 85

universities in the world

Times Higher Education

Engineering Co-op & Career Services (ECCS) connects students with employers, offers career development tools and resources, and provides opportunities for students to gain employment experience.

We understand that every student is different; your career journey is shaped by the many experiences you have. Engineering Co-op & Career Services is here to prepare you for your future. Our approach allows you to have the flexibility to make your own decisions and choices, with the support of our team and subject-matter experts. We are here to guide, support, coach and offer expertise, resources and options.

Our program is optional, flexible and accessible for all.

- Co-op is available in all degree options.
- A minimum of 12 months of relevant work experience is required to receive the co-op designation on your degree.
- For maximum flexibility, options include:
 - 4-month summer work-terms.
 - 8-month to 16-month continuous a-terms

Career Support & Skill Development

From career support to skill development, ECCS offers a wide range of services available to all students registered in the Faculty of Engineering. We believe in integrating our services and taking an educative approach to ensure our students get the best out of our services:

- Employment Preparation and Career Readiness
- Career Educators for each program
- 1:1 appointments and job search support
- Professional & career development workshops
- On-the-job check-ins and work term reflections
- Emphasis on the lifelong process, skill development, and professional growth

99%

Of students felt their company provided them with a **diverse, ethical, & equitable** work environment

96%

Of students felt their company provided them with a **rewarding work** environment

Companies

Faculty of Engineering co-op students undertake work terms with leading companies across the globe, including:

Aecon Group Inc.	Ontario Power
ArcelorMittal Dofasco	Ford Canada
BlackBerry	GE Canada
Celestica	General Motors
Chrysler	Generation
CIBC	John Deere
Corporation	Rockwell Automation
Corporation Maple Leaf	Stackpole International
Foods	Stem Cell Technologies

Statistics

- McMaster Engineering is the second largest co-op program in Ontario, Canada.
- In 2022/2023, over 2500 undergraduate and graduate students completed over 4000 co-op work terms across the globe.
