

Bachelor of Technology Degree Completion Programs ELIGIBLE COLLEGE PARTNER PROGRAMS

Admission Requirements

The Degree Completion Programs will consider students who have completed an advanced level (three year) technology diploma in a related technology field and have met the following GPA requirements:

Civil Engineering Infrastructure Technology: Minimum 80% GPA as of the Fall 2022 intake

Power and Energy Engineering Technology: Minimum 75% GPA Manufacturing Engineering Technology: Minimum 75% GPA Software Engineering Technology: Minimum 75% GPA

If you hold an advanced diploma (or equivalent) in a related technology and have a cumulative average above 70% but below the minimum GPA cut-off for your program of interest, please contact us at thinkeng@mcmaster.ca or 905-525-9140 Ext. 27174 to discuss the alternate pathway that may be open to you.

Applicants with educational backgrounds equivalent to a three-year advanced level college diploma, including internationally educated applicants, will be considered on an individual basis and are encouraged to apply.

Those with university degrees are encouraged to consider graduate programs in engineering at McMaster.

*Note: You must submit transcripts for ALL post-secondary work that you have completed (i.e. at a university or college in Canada or internationally), including work in any field completed prior to or after your advanced diploma.

^{*}The Bachelor of Technology Degree Completion Program will be reviewed periodically, introducing new amendments as appropriate. Any changes to this pathway will not affect students enrolled at McMaster.

^{**}Admission requirements are subject to change. Additional coursework may be recommended prior to admission for certain college programs. Please contact our office for further details.

^{***}You must submit transcripts for ALL post-secondary work that you have completed (i.e. at a university or college in Canada or internationally), including work in any field completed prior to or after your advanced diploma.
