

# MacPherson Institute (MI) Supports and Services for Graduate Students

## New TA Programming Page

Visit the [TA Programming](#) page for the McMaster Teaching Assistant Guide, insights from experienced TAs, and more.

## Online Modules

The [MI Learning Catalogue](#), has more than twenty online asynchronous modules on various teaching and learning topics.

## Intensive Workshops

**Instructional Skills Workshop (ISW)** Learn about a model of lesson planning; design and deliver three lessons; and give / receive peer feedback.

### **Course (re)Design Workshop (CrDW)**

Learn about course design, design or redesign course components, and give/receive peer feedback.

### **Assessment Development Workshop**

**(ADW)** Learn about assessment, design or redesign an assessment, and give / receive peer feedback.

## Teaching Refinements and Teaching Observations

Use DIY resources to collect [feedback on your teaching](#), or have an MI Educational Developer help you collect mid-course feedback or observe your teaching.

## Other MI Opportunities

Explore [other opportunities](#) including paid opportunities for graduate students to work with MI Educational Developers (e.g., Educational Development Fellows Program) and McMaster faculty and staff (e.g., Student Partners Program).

Other supports and services include teaching and learning consultations, support for institutionally supported tools (e.g., Avenue to Learn, MacVideo), bookable studio spaces, and the Learning to Teach Online course.

## Stay Connected

To learn more about teaching and learning supports, services, events, and opportunities, subscribe to MI's weekly newsletter, [The MacPherson Memo](#).
