

ME4I03 Noise Analysis and Control - Course Outline

Instructor: Dr. Brian Chapnik. E-mail: chapnikb@mcmaster.ca

Teaching Assistant: Shreenivas Rangarajan. E-mail: rangas6@mcmaster.ca

Text: Engineering Noise Control, 5th Edition, Bies, Hansen & Howard

Classroom: MDCL 1116

Class Time: Tuesdays, 7-10 pm

Office Hours: There will be no additional formal office hours. Students are welcome to e-mail the professor or TA with questions or concerns.

Course Website: on A2L

Learning Units: In person 3-hours per week.

Practice Sets: Additional problem sets will be distributed through A2L, with solutions to selected problems worked through at the beginning of class the following week.

COURSE OUTCOMES

1. To obtain an understanding of sound, how it is described and measured, and how it propagates outdoors and indoors.
2. To learn about relevant regulations and standardized ratings for noise.
3. To learn about methods for the control of noise, and how they are designed.
4. To obtain an understanding of the field of acoustical engineering and relevant areas of application.

WEIGHTING OF GRADES

Quizzes – 30% (3 quizzes)

Hands-on Assignments – 45% (3 short assignments to be handed in, short presentations)

Comprehensive Group Assignment and Presentation – 25%

COURSE CALENDAR

September 5

Course and Lecturer Introductions

Unit 1 - Fundamentals & Terminology

- Properties and Characteristics of Sound Waves
- Units and Frequency Analysis
- Loudness
- Frequency Weightings and Time Constants

September 12

Unit 2 – Outdoor Sound Basics

- Sound Sources and Radiation
- Sound Power Relationships
- Outdoor Sound Propagation
- ISO 9613

September 19

Unit 3 – Environmental Noise Criteria and Measurement Instrumentation

- Noise Criteria and Jurisdictions
- MECP NPC-300 and Beyond
- Acoustic Instrumentation with Demo

September 26

Unit 4 – Sound in Rooms

- Room Types and Modes
- Partially Reflective or Real Rooms
- Absorbers and Absorption Areas

Demo of RT Measurement

Introduce Assignment #1

October 3

Quiz #1 (Units 1 to 3)

Assignment #1 due

Class presentations of Assignment #1 results

Q&A

October 10 – MIDTERM RECESS, NO CLASS

October 17

Unit 5 – Sound Transmission through Structures

- Sound in Solids
- Sound Transmission Loss
- STC and IIC

Introduce Assignment #2

Demo of STC Test

October 24

Unit 5X – Additional Topics in Building Acoustics

- Building Noise Criteria
- Speech Privacy and Intelligibility
- Flanking, SII and AI

October 31

Quiz #2 (Units 4 and 5)

Assignment #2 due

Class presentations of Assignment #2 results

Q&A

November 7

Unit 6a – Mufflers and Silencers

- Introduction to Mufflers
- Reactive Devices
- Dissipative Devices

Introduce Assignment #3

Demo of HHR

November 14

Unit 6b – Mufflers and Silencers continued

- ASHRAE HVAC Noise Calculations
- Pressure Drop
- Flow Generated Noise

Assignment #3 due

Class presentations of Assignment #3 results

November 21

- Quiz #3 (Units 5X, 6a and 6b)
- Unit 7 – Noise Level Estimates
 - Estimation of Equipment Noise Emissions
 - FTA Traffic Noise Manual
- Introduce and Distribute Group Assignments

November 28

Group Workshops - meet with Groups individually (30-45 mins each) to review assignment progress and address questions. No new learning units this week, students to work on Group Assignments.

December 5

- Group Assignments Due
- In Class Presentations of Group Assignments – 15-20 mins each, plus feedback

POLICY REMINDERS

Equity, Diversity, and Inclusion

Every registered student belongs in this course. Diversity of backgrounds and experiences is expected and welcome. You can expect your Instructor to be respectful of this diversity in all aspects of the course, and the same is expected of you.

The Department of Mechanical Engineering is committed to creating an environment in which students of all genders, cultures, ethnicities, races, sexual orientations, abilities, and socioeconomic backgrounds have equal access to education and are welcomed and treated fairly. If you have any concerns regarding inclusion in our Department, in particular if you or one of your peers is experiencing harassment or discrimination, you are encouraged to contact the Chair, Associate Undergraduate Chair, Academic Advisor or to contact the [Equity and Inclusion Office](#).

Physical and Mental Health

For a list of McMaster University's resources, please refer to the [Student Wellness Centre](#).

Academic Integrity

You are expected to exhibit honesty and use ethical behaviour in all aspects of the learning process. Academic credentials you earn are rooted in principles of honesty and academic integrity. **It is your responsibility to understand what constitutes academic dishonesty.**

Academic dishonesty is to knowingly act or fail to act in a way that results or could result in unearned academic credit or advantage. This behaviour can result in serious consequences, e.g. the grade of zero on an assignment, loss of credit with a notation on the transcript (notation reads: "Grade of F assigned for academic dishonesty"), and/or suspension or expulsion from the university. For information on the various types of academic dishonesty please refer to the [Academic Integrity Policy](#), located at <https://secretariat.mcmaster.ca/university-policies-procedures-guidelines/>

The following illustrates only three forms of academic dishonesty:

1. plagiarism, e.g. the submission of work that is not one's own or for which other credit has been obtained.
2. improper collaboration in group work.
3. copying or using unauthorized aids in tests and examinations.

Authenticity / Plagiarism Detection

Some courses may use a web-based service (Turnitin.com) to reveal authenticity and ownership of student submitted work. For courses using such software, students will be expected to submit their work electronically either directly to Turnitin.com or via an online learning platform (e.g. A2L, etc.) using plagiarism detection (a service supported by Turnitin.com) so it can be checked for academic dishonesty.

Students who do not wish their work to be submitted through the plagiarism detection software must inform the Instructor before the assignment is due. No penalty will be assigned to a student who does not submit work to the plagiarism detection software. **All submitted work is subject to normal verification that standards of academic integrity have been upheld** (e.g., on-line search, other software, etc.). For more details about McMaster's use of Turnitin.com please go to www.mcmaster.ca/academicintegrity.

Courses with an On-Line Element

McMaster is committed to an inclusive and respectful community. These principles and expectations extend to online activities including electronic chat groups, video calls and other learning platforms.

Some courses may use on-line elements (e.g. e-mail, Avenue to Learn (A2L), LearnLink, web pages, capa, Moodle, ThinkingCap, etc.). Students should be aware that, when they access the electronic components of a course using these elements, private information such as first and last names, user names for the McMaster e-mail accounts, and program affiliation may become apparent to all other students in the same course. The available information is dependent on the technology used. Continuation in a course that uses on-line elements will be deemed consent to this disclosure. If you have any questions or concerns about such disclosure, please discuss this with the course instructor.

Online Proctoring

Some courses may use online proctoring software for tests and exams. This software may require students to turn on their video camera, present identification, monitor and record their computer activities, and/or lock/restrict their browser or other applications/software during tests or exams. This software may be required to be installed before the test/exam begins.

Conduct Expectations

As a McMaster student, you have the right to experience, and the responsibility to demonstrate, respectful and dignified interactions within all of our living, learning and working communities. These expectations are described in the [Code of Student Rights & Responsibilities](#) (the "Code"). All students share the responsibility of maintaining a positive environment for the academic and personal growth of all McMaster community members, **whether in person or online**.

It is essential that students be mindful of their interactions online, as the Code remains in effect in virtual learning environments. The Code applies to any interactions that adversely affect, disrupt, or interfere with reasonable participation in University activities. Student disruptions or behaviours that interfere with university functions on online platforms (e.g. use of Avenue 2 Learn, WebEx or Zoom for delivery), will be taken very seriously and will be investigated. Outcomes may include restriction or removal of the involved students' access to these platforms.

Academic Accommodation of Students with Disabilities

Students with disabilities who require academic accommodation must contact [Student Accessibility Services](#) (SAS) at 905-525-9140 ext. 28652 or sas@mcmaster.ca to make arrangements with a Program Coordinator. For further information, consult McMaster University's [Academic Accommodation of Students with Disabilities](#) policy.

Course Policy on Missed Work, Extensions, and Late Penalties

1. It is the students' responsibility to regularly check the course webpage (ex. Avenue to Learn) for updates and announcements.
2. Subject to the discretion of the instructor, late assignment submissions may not be marked.
3. For missed exams, an MSAF will be required, including supporting documentation as noted.

Submission of Request for Relief for Missed Academic Work

In the event of an absence for medical or other reasons, students should review and follow the Academic Regulation in the Undergraduate Calendar "Requests for Relief for Missed Academic Term Work".

1. **Relief for missed academic work worth less than 25% of the final grade resulting from medical or personal situations lasting up to three calendar days:**
 - Use the [McMaster Student Absence Form](#) (MSAF) on-line self-reporting tool. No further documentation is required.
 - Students may submit requests for relief using the MSAF once per term.
 - An automated email will be sent to the course instructor, who will determine the appropriate relief. Students must immediately follow up with their instructors. Failure to do so may negate the opportunity for relief.
 - The MSAF cannot be used to meet a religious obligation or to celebrate an important religious holiday.
 - The MSAF cannot be used for academic work that has already been completed attempted.
 - An MSAF applies only to work that is due within the period for which the MSAF applies, i.e. the 3-day period that is specified in the MSAF; however, all work due in that period can be covered by one MSAF.
 - The MSAF cannot be used to apply for relief for any final examination or its equivalent. See *Petitions for Special Consideration* above.
2. **For medical or personal situations lasting more than three calendar days, and/or for missed academic work worth 25% or more of the final grade, and/or for any request for relief in a term where the MSAF has been used previously in that term:**
 - Students must report to their Faculty Office to discuss their situation and will be required to provide appropriate **supporting documentation**.
 - If warranted, the Faculty Office will approve the absence, and the instructor will determine appropriate relief.

Academic Accommodation for Religious, Indigenous or Spiritual Observances (RISO)

Students requiring academic accommodation based on religious, indigenous or spiritual observances should follow the procedures set out in the [RISO](#) policy. Students should submit their request to their Faculty Office **normally within 10 working days** of the beginning of term in which they anticipate a need for accommodation or to the Registrar's Office prior to their examinations. Students should also contact their instructors as soon as possible to make alternative arrangements for classes, assignments, and tests.

Copyright and Recording

Students are advised that lectures, demonstrations, performances, and any other course material provided by an instructor include copyright protected works. The Copyright Act and copyright law protect every original literary, dramatic, musical and artistic work, **including lectures** by University instructors

The recording of lectures, tutorials, or other methods of instruction may occur during a course. Recording may be done by either the instructor for the purpose of authorized distribution, or by a student for the purpose of personal study. Students should be aware that their voice and/or image may be recorded by others during the class. Please speak with the instructor if this is a concern for you.

Extreme Circumstances

The University reserves the right to change the dates and deadlines for any or all courses in extreme circumstances (e.g., severe weather, labour disruptions, etc.). Changes will be communicated through regular McMaster communication channels, such as McMaster Daily News, A2L and/or McMaster email.
