

## Course Outline

### 1. COURSE INFORMATION

<b>Session Offered</b>	Fall 2021	
<b>Course Name</b>	Advanced Mathematics	
<b>Course Code</b>	ENG TECH 4MA3	
<b>Date(s) and Time(s) of lectures</b>	Wednesday 18:30 – 21:20	
<b>Program Name</b>	Civil Engineering Infrastructure Technology / Energy Engineering Technologies / Manufacturing Engineering Technology	
<b>Calendar Description</b>	Sequence and series, Fourier series, Matrix algebra, Formulating Engineering process models, Numerical solutions techniques, Root findings, Curve fittings, Numerical integration, Numerical differentiation, Ordinary differential equations.	
<b>Instructor(s)</b>	Silvie Tanu Halim	E-Mail: <a href="mailto:tanuhasm@mcmaster.ca">tanuhasm@mcmaster.ca</a> Office Hours & location: Wednesday 17:30 – 18:20 By appointment, Zoom meeting.

### 2. COURSE SPECIFICS

<b>Course Description</b>			
<b>Instruction Type</b>	<b>Code</b>	<b>Type</b>	<b>Hours per term</b>
	C	Classroom instruction	30
	L	Laboratory, workshop or fieldwork	9
	T	Tutorial	
	DE	Distance education	
	<b>Total Hours</b>		39
<b>Resources</b>	<b>ISBN</b>	<b>Textbook Title &amp; Edition</b>	<b>Author &amp; Publisher</b>
	ISBN: 978-0-07-339792-4	Numerical Methods for Engineers, 7 <sup>th</sup> Edition	Steven C. Chapra Raymond P. Canale McGrawHill
	<b>Other Supplies</b>	<b>Source</b>	
	N/A	N/A	
<b>Prerequisite(s)</b>	ENG TECH 3MA3 and registration in Civil Engineering Infrastructure Technology, Power and Energy Engineering Technologies, or Manufacturing Technology		
<b>Corequisite(s)</b>			
<b>Antirequisite(s)</b>	CIVTECH 3MN3		
<b>Course Specific Policies</b>	<ul style="list-style-type: none"> <li>• The instructor reserves the right to choose the format of any deferred tests or deferred final exams.</li> <li>• Announcements concerning any type of graded material maybe in any format (e.g., announcements may be made only in class). Students are responsible for completing the graded material regardless of whether they received the announcement or not.</li> <li>• Late assignments and lab will not be marked</li> <li>• Quizzes, tests and final exam are closed book, without cheat sheet.</li> <li>• Students will not be allowed to rewrite for any missed quiz.</li> <li>• Only McMaster University's official approved calculator is allowed. Casio fx-991.</li> </ul>		

	<ul style="list-style-type: none"> <li>This course may use proctoring software exam. This software may require you to turn on your video camera, present identification, monitor and record your computer activities, and lockdown your browser during the exam. This software may be required to be installed before the exam begins. If you have questions about whether this software will be used, or concerns about the use of this software, please contact your instructor.</li> </ul>	
<b>Departmental Policies</b>	<p>Students must maintain a GPA of 3.5/12 to continue in the program.</p> <p>In order to achieve the required learning objectives, on average, B.Tech. students can expect to do at least 3 hours of “out-of-class” work for every scheduled hour in class. “Out-of-class” work includes reading, research, assignments and preparation for tests and examinations.</p> <p>Where group work is indicated in the course outline, such collaborative work is mandatory.</p> <p>The use of cell phones, iPods, laptops and other personal electronic devices are prohibited from the classroom during the class time, unless the instructor makes an explicit exception.</p> <p>Announcements made in class or placed on Avenue are considered to have been communicated to all students including those individuals that are not in class.</p> <p>Instructor has the right to submit work to software to identify plagiarism.</p>	
<b>3. SUB TOPIC(S)</b>		
Week 1 (8 Sept)	<ul style="list-style-type: none"> <li>Series</li> <li>Series Solution to Differential Equations</li> </ul>	Notes
Week 2 (15 Sept)	<ul style="list-style-type: none"> <li>Fourier Series</li> <li>Introduction to Numerical Methods</li> <li>Accuracy and Errors</li> </ul>	Notes
Week 3 (22 Sept)	<ul style="list-style-type: none"> <li>Solutions of Nonlinear Equations</li> </ul>	Chap 5,6
Week 4 (29 Sept)	<ul style="list-style-type: none"> <li>Systems of LAEs</li> </ul>	Chap 9,10
Week 5 (6 Oct)	<b>Test 1</b>	
Week 6 (13 Oct)	<b>Mid-Term Recess</b>	
Week 7 (20 Oct)	<ul style="list-style-type: none"> <li>Curve Fitting</li> </ul>	Chap 17
Week 8 (27 Oct)	<ul style="list-style-type: none"> <li>Interpolation</li> </ul>	Chap 18
Week 9-11 (3 Nov, 10 Nov & 17 Nov)	<b>Labs</b>	
Week 12 (24 Nov)	<ul style="list-style-type: none"> <li>Numerical Integration, Numerical Differentiation</li> </ul>	Chap 21 – 23

Week 13 (1 Dec)	<ul style="list-style-type: none"> <li>Numerical Integration, Numerical Differentiation</li> </ul>	Chap 21 – 23
Week 13 (8 Dec)	<ul style="list-style-type: none"> <li>Numerical Solution of Differential Equations</li> </ul>	Chap 25

### List of Lab Activities

Note that this structure represents a plan and is subject to adjustment term by term.

The instructor and the University reserve the right to modify elements of the course during the term. The University may change the dates and deadlines for any or all courses in extreme circumstances. If either type of modification becomes necessary, reasonable notice and communication with the students will be given with explanation and the opportunity to comment on changes.

4. ASSESSMENT OF LEARNING *including dates*	Weight
Term Test (6 October)	25%
Labs	5%
1 Assignment (due on 24 November)	15%
Final examination (TBA)	55%
<b>TOTAL</b>	<b>100%</b>

Percentage grades will be converted to letter grades and grade points per the University calendar.

### 5. LEARNING OUTCOMES

1. Using series to solve differential equations
2. Formulate engineering problems as algebraic equations
3. Formulate engineering problems from a given set of data
4. Formulate engineering problems as ordinary differential equations
5. Able to solve formulated engineering problems using numerical methods

### 6. POLICIES

#### ANTI-DISCRIMINATION

The Faculty of Engineering is concerned with ensuring an environment that is free of all discrimination. If there is a problem, individuals are reminded that they should contact the Department Chair, the Sexual Harassment Officer or the Human Rights Consultant, as soon as possible.

[http://www.mcmaster.ca/policy/General/HR/Discrimination\\_Harassment\\_Sexual\\_Harassment-Prevention&Response.pdf](http://www.mcmaster.ca/policy/General/HR/Discrimination_Harassment_Sexual_Harassment-Prevention&Response.pdf)

#### ACADEMIC INTEGRITY

You are expected to exhibit honesty and use ethical behaviour in all aspects of the learning process. Academic credentials you earn are rooted in principles of honesty and academic integrity. It is your responsibility to understand what constitutes academic dishonesty.

Academic dishonesty is to knowingly act or fail to act in a way that results or could result in unearned academic credit or advantage. This behaviour can result in serious consequences, e.g. the grade of zero on an assignment, loss of credit with a notation on the transcript (notation reads: "Grade of F assigned for academic dishonesty"), and/or suspension or expulsion from the university. For information on the various types of academic dishonesty please refer to the Academic Integrity Policy, located at <https://secretariat.mcmaster.ca/university-policies-procedures-guidelines/>

The following illustrates only three forms of academic dishonesty: The following illustrates only three forms of academic dishonesty:

- plagiarism, e.g. the submission of work that is not one's own or for which other credit has been obtained.
- improper collaboration in group work.
- copying or using unauthorized aids in tests and examinations.

#### AUTHENTICITY / PLAGIARISM DETECTION

Some courses may use a web-based service (Turnitin.com) to reveal authenticity and ownership of student submitted work. For courses using such software, students will be expected to submit their work electronically either directly to Turnitin.com or via an online learning platform (e.g. A2L, etc.) using plagiarism detection (a service supported by Turnitin.com) so it can be checked for academic dishonesty.

Students who do not wish their work to be submitted through the plagiarism detection software must inform the Instructor before the assignment is due. No penalty will be assigned to a student who does not submit work to the plagiarism detection software. All submitted work is subject to normal verification that standards of academic integrity have been upheld (e.g., on-line search, other software, etc.). For more details about McMaster's use of Turnitin.com please go to [www.mcmaster.ca/academicintegrity](http://www.mcmaster.ca/academicintegrity).

### **COURSES WITH AN ON-LINE ELEMENT**

Some courses may use on-line elements (e.g. e-mail, Avenue to Learn (A2L), LearnLink, web pages, capa, Moodle, ThinkingCap, etc.). Students should be aware that, when they access the electronic components of a course using these elements, private information such as first and last names, user names for the McMaster e-mail accounts, and program affiliation may become apparent to all other students in the same course. The available information is dependent on the technology used. Continuation in a course that uses on-line elements will be deemed consent to this disclosure. If you have any questions or concerns about such disclosure please discuss this with the course instructor.

### **ONLINE PROCTORING**

Some courses may use online proctoring software for tests and exams. This software may require students to turn on their video camera, present identification, monitor and record their computer activities, and/or lock/restrict their browser or other applications/software during tests or exams. This software may be required to be installed before the test/exam begins.

### **COMMUNICATIONS**

It is the student's responsibility to:

- Maintain current contact information with the University, including address, phone numbers, and emergency contact information.
- Use the University provided e-mail address or maintain a valid forwarding e-mail address.
- Regularly check the official University communications channels. Official University communications are considered received if sent by postal mail, by fax, or by e-mail to the student's designated primary e-mail account via their @mcmaster.ca alias.
- Accept that forwarded e-mails may be lost and that e-mail is considered received if sent via the student's @mcmaster.ca alias.
- Check the McMaster/Avenue email and course websites on a regular basis during the term.

### **CONDUCT EXPECTATIONS**

As a McMaster student, you have the right to experience, and the responsibility to demonstrate, respectful and dignified interactions within all of our living, learning and working communities. These expectations are described in the Code of Student Rights & Responsibilities (the "Code"). All students share the responsibility of maintaining a positive environment for the academic and personal growth of all McMaster community members, whether in person or online.

It is essential that students be mindful of their interactions online, as the Code remains in effect in virtual learning environments. The Code applies to any interactions that adversely affect, disrupt, or interfere with reasonable participation in University activities. Student disruptions or behaviours that interfere with university functions on online platforms (e.g. use of Avenue 2 Learn, WebEx or Zoom for delivery), will be taken very seriously and will be investigated. Outcomes may include restriction or removal of the involved students' access to these platforms.

### **ACADEMIC ACCOMMODATION OF STUDENTS WITH DISABILITIES**

Students with disabilities who require academic accommodation must contact Student Accessibility Services (SAS) at 905-525-9140 ext. 28652 or [sas@mcmaster.ca](mailto:sas@mcmaster.ca) to make arrangements with a Program Coordinator. For further information, consult McMaster University's Academic Accommodation of Students with Disabilities policy.

### **REQUESTS FOR RELIEF FOR MISSED ACADEMIC TERM WORK**

McMaster Student Absence Form (MSAF): In the event of an absence for medical or other reasons, students should review and follow the Academic Regulation in the Undergraduate Calendar “Requests for Relief for Missed Academic Term Work”.

### **ACADEMIC ACCOMMODATION FOR RELIGIOUS, INDIGENOUS OR SPIRITUAL OBSERVANCES (RISO)**

Students requiring academic accommodation based on religious, indigenous or spiritual observances should follow the procedures set out in the RISO policy. Students should submit their request to their Faculty Office normally within 10 working days of the beginning of term in which they anticipate a need for accommodation or to the Registrar's Office prior to their examinations. Students should also contact their instructors as soon as possible to make alternative arrangements for classes, assignments, and tests.  
<http://www.mcmaster.ca/policy/Students-AcademicStudies/Studentcode.pdf>

### **COPYRIGHT AND RECORDING**

Students are advised that lectures, demonstrations, performances, and any other course material provided by an instructor include copyright protected works. The Copyright Act and copyright law protect every original literary, dramatic, musical and artistic work, including lectures by University instructors. The recording of lectures, tutorials, or other methods of instruction may occur during a course. Recording may be done by either the instructor for the purpose of authorized distribution, or by a student for the purpose of personal study. Students should be aware that their voice and/or image may be recorded by others during the class. Please speak with the instructor if this is a concern for you.

### **EXTREME CIRCUMSTANCES**

The University reserves the right to change the dates and deadlines for any or all courses in extreme circumstances (e.g., severe weather, labour disruptions, etc.). Changes will be communicated through regular McMaster communication channels, such as McMaster Daily News, A2L and/or McMaster email.
