

## Course Outline

1. COURSE INFORMATION			
Session Offered	Fall 2021		
Course Name	Reinforced Concrete and Masonry Design		
Course Code	CIVTECH4RC3		
Date(s) and Time(s) of lectures	Tuesday 18:30-21:30 (Virtual Classroom)		
Program Name	Civil Engineering Infrastructure Technology		
Calendar Description	Design by limit states methods to ensure adequate capacities for bending moment, shear and diagonal tension, axial force; and design to satisfy serviceability requirements.		
Instructor(s)	Dr. Reza Ushaksaraei, Ph.D., P.Eng.	E-mail: <a href="mailto:ushakr@mcmaster.ca">ushakr@mcmaster.ca</a>	
2. COURSE SPECIFICS			
Course Description	This course provides background materials to enable students to understand the behavior of structural reinforced concrete and masonry members, and to successfully design simple reinforced concrete and masonry structures in accordance with CAN/CSA A23.3-14 & CSA A23.3:19 “Design of Concrete Structures” and CAN/CSA S304-14 “Design of Masonry Structures”.		
Instruction Type	<b>Code</b>	<b>Type</b>	<b>Hours per term</b>
	C	Virtual Classroom instruction	39
	L	Laboratory, workshop or fieldwork	
	T	Tutorial	
	DE	Distance education	
	<b>Total Hours</b>		39
Resources	<b>ISBN</b>	<b>Textbook Title &amp; Edition</b>	<b>Author &amp; Publisher</b>
		Lecture Slides are posted on Avenue to Learn.	
	ISBN: 0-9737209-0-5	Masonry Structures Behaviour and Design – Canadian Edition ( <b>not mandatory</b> )	R.G. Drysdale and A.A. Hamid, Canada Masonry Design Centre (CMDC)
	<b>Other Supplies</b>	CSA Standards A23.3-14 & CSA A23.3:19 – Design of Concrete Structures (may be accessed for free from McMaster Library: <a href="http://library.mcmaster.ca/articles/csa-standards">http://library.mcmaster.ca/articles/csa-standards</a> )  Concrete Design Handbook – 3rd or 4th Edition, by CAC ( <b>not mandatory</b> )	
Prerequisite(s)	CIVTECH3SA3 and registration in Civil Engineering Infrastructure Technology		
Corequisite(s)	n/a		

<b>Antirequisite(s)</b>	n/a
<b>Course Specific Policies</b>	<ul style="list-style-type: none"> <li>• The course will be delivered as Virtual Classroom based on the regular weekly schedule. Instructions for joining the virtual lectures will be posted on Avenue to Learn.</li> <li>• Learning materials will be available to you on Avenue to Learn, as usual.</li> <li>• Instructor meetings will be conducted remotely using Zoom. The instructor can also be contacted via email, as usual.</li> <li>• Assignments can be uploaded on Avenue to Learn. The instruction will be posted on Avenue ahead of time.</li> <li>• The Midterm Test and the Final Exam will be take-home exams posted on Avenue to Learn. You will upload your answers on Avenue. The details will be posted on Avenue ahead of time.</li> <li>• Due dates for course work will be posted on Avenue to Learn ahead of time.</li> </ul>
<b>Departmental Policies</b>	<p>Students must maintain a GPA of 3.5/12 to continue in the program.</p> <p>In order to achieve the required learning objectives, on average, B.Tech. students can expect to do at least 3 hours of “out-of-class” work for every scheduled hour in class. “Out-of-class” work includes reading, research, assignments and preparation for tests and examinations.</p> <p>Where group work is indicated in the course outline, such collaborative work is mandatory.</p> <p>The use of cell phones, iPods, laptops and other personal electronic devices are prohibited from the classroom during the [in-person] class time, unless the instructor makes an explicit exception.</p> <p>Announcements made in class or placed on Avenue are considered to have been communicated to all students including those individuals that are not in class.</p> <p>Instructor has the right to submit work to software to identify plagiarism.</p>
<b>3. SUB TOPIC(S)</b>	
Week 1	Introduction to reinforced concrete (RC) structures, principles of limit state design, and material properties.
Week 2	RC beams under flexure [Part-1].
Week 3	RC beams under flexure [Part-2].
Week 4	RC beams under flexure [Part-3].
Week 5	RC beams subjected to shear [Part-1].
Mid-term Recess: Monday, October 11 to Sunday, October 17	
Week 6	RC beams subjected to shear [Part-2].
Week 7	RC columns [Part-1].
Week 8	<b>Midterm Test</b> (Note: This is a tentative date. The Midterm Test’s date will be announced on Avenue to Learn ahead of time.)

Week 9	RC columns [Part-2].
Week 10	Masonry materials and behaviour of masonry assemblages.
Week 11	Reinforced masonry (RM) beams and lintels.
Week 12	Masonry walls under axial load and out-of-plane bending.
Week 13	Review

Classes end: Wednesday, December 8<sup>th</sup>, 2021  
 Final examination period: Thursday, December 9 to Wednesday, December 22  
 All examinations MUST be written during the scheduled examination period.

Note that this structure represents a plan and is subject to adjustment term by term.  
 The instructor and the University reserve the right to modify elements of the course during the term. The University may change the dates and deadlines for any or all courses in extreme circumstances. If either type of modification becomes necessary, reasonable notice and communication with the students will be given with explanation and the opportunity to comment on changes.

<b>4. ASSESSMENT OF LEARNING*including dates*</b>	<b>Weight</b>
Assignments	<b>10%</b>
Mid-term test	<b>40%</b>
Final examination (tests cumulative knowledge)	<b>50%</b>
<b>TOTAL</b>	<b>100%</b>

Percentage grades will be converted to letter grades and grade points per the University calendar.

**5. LEARNING OUTCOMES**

1. General understanding of limit state design philosophy
2. Fundamental knowledge of materials used in reinforced concrete and masonry construction
3. Understanding of the mechanics governing the behaviour of RC, URM, and RM elements
4. General understanding of Canadian Standards pertaining to RC and masonry construction
5. Specific knowledge of CSA Standards A23.3-14 and S304-14 and ability to translate the Standards' recommendations into effective design practice
6. Ability to design simple masonry elements (beams and walls) in accordance with modern standards

**6. COURSE OUTLINE – APPROVED ADVISORY STATEMENTS**

**ANTI-DISCRIMINATION**

The Faculty of Engineering is concerned with ensuring an environment that is free of all discrimination. If there is a problem, individuals are reminded that they should contact the Department Chair, the Sexual Harassment Officer or the Human Rights Consultant, as soon as possible.  
[http://www.mcmaster.ca/policy/General/HR/Discrimination\\_Harassment\\_Sexual\\_Harassment-Prevention&Response.pdf](http://www.mcmaster.ca/policy/General/HR/Discrimination_Harassment_Sexual_Harassment-Prevention&Response.pdf)

**ACADEMIC INTEGRITY**

You are expected to exhibit honesty and use ethical behaviour in all aspects of the learning process. Academic credentials you earn are rooted in principles of honesty and academic integrity. It is your responsibility to understand what constitutes academic dishonesty.

Academic dishonesty is to knowingly act or fail to act in a way that results or could result in unearned academic credit or advantage. This behaviour can result in serious consequences, e.g. the grade of zero on an assignment, loss of credit with a notation on the transcript (notation reads: "Grade of F assigned for academic dishonesty"), and/or suspension or expulsion from the university. For information on the various types of academic dishonesty please refer to the Academic Integrity Policy, located at <https://secretariat.mcmaster.ca/university-policies-procedures-guidelines/>

The following illustrates only three forms of academic dishonesty: The following illustrates only three forms of academic dishonesty:

- plagiarism, e.g. the submission of work that is not one's own or for which other credit has been obtained.
- improper collaboration in group work.
- copying or using unauthorized aids in tests and examinations.

### **AUTHENTICITY / PLAGIARISM DETECTION**

Some courses may use a web-based service (Turnitin.com) to reveal authenticity and ownership of student submitted work. For courses using such software, students will be expected to submit their work electronically either directly to Turnitin.com or via an online learning platform (e.g. A2L, etc.) using plagiarism detection (a service supported by Turnitin.com) so it can be checked for academic dishonesty.

Students who do not wish their work to be submitted through the plagiarism detection software must inform the Instructor before the assignment is due. No penalty will be assigned to a student who does not submit work to the plagiarism detection software. All submitted work is subject to normal verification that standards of academic integrity have been upheld (e.g., on-line search, other software, etc.). For more details about McMaster's use of Turnitin.com, please go to [www.mcmaster.ca/academicintegrity](http://www.mcmaster.ca/academicintegrity).

### **COURSES WITH AN ON-LINE ELEMENT**

Some courses may use on-line elements (e.g. e-mail, Avenue to Learn (A2L), LearnLink, web pages, capa, Moodle, ThinkingCap, etc.). Students should be aware that, when they access the electronic components of a course using these elements, private information such as first and last names, user names for the McMaster e-mail accounts, and program affiliation may become apparent to all other students in the same course. The available information is dependent on the technology used. Continuation in a course that uses on-line elements will be deemed consent to this disclosure. If you have any questions or concerns about such disclosure please discuss this with the course instructor.

### **ONLINE PROCTORING**

Some courses may use online proctoring software for tests and exams. This software may require students to turn on their video camera, present identification, monitor and record their computer activities, and/or lock/restrict their browser or other applications/software during tests or exams. This software may be required to be installed before the test/exam begins.

### **COMMUNICATIONS**

It is the student's responsibility to:

- Maintain current contact information with the University, including address, phone numbers, and emergency contact information.
- Use the University provided e-mail address or maintain a valid forwarding e-mail address.
- Regularly check the official University communications channels. Official University communications are considered received if sent by postal mail, by fax, or by e-mail to the student's designated primary e-mail account via their @mcmaster.ca alias.
- Accept that forwarded e-mails may be lost and that e-mail is considered received if sent via the student's @mcmaster.ca alias.
- Check the McMaster/Avenue email and course websites on a regular basis during the term.

### **CONDUCT EXPECTATIONS**

As a McMaster student, you have the right to experience, and the responsibility to demonstrate, respectful and dignified interactions within all of our living, learning and working communities. These expectations are described in the Code of Student Rights & Responsibilities (the “Code”). All students share the responsibility of maintaining a positive environment for the academic and personal growth of all McMaster community members, whether in person or online.

It is essential that students be mindful of their interactions online, as the Code remains in effect in virtual learning environments. The Code applies to any interactions that adversely affect, disrupt, or interfere with reasonable participation in University activities. Student disruptions or behaviours that interfere with university functions on online platforms (e.g. use of Avenue 2 Learn, WebEx or Zoom for delivery), will be taken very seriously and will be investigated. Outcomes may include restriction or removal of the involved students’ access to these platforms.

### **ACADEMIC ACCOMMODATION OF STUDENTS WITH DISABILITIES**

Students with disabilities who require academic accommodation must contact Student Accessibility Services (SAS) at 905-525-9140 ext. 28652 or [sas@mcmaster.ca](mailto:sas@mcmaster.ca) to make arrangements with a Program Coordinator. For further information, consult McMaster University’s Academic Accommodation of Students with Disabilities policy.

### **REQUESTS FOR RELIEF FOR MISSED ACADEMIC TERM WORK**

McMaster Student Absence Form (MSAF): In the event of an absence for medical or other reasons, students should review and follow the Academic Regulation in the Undergraduate Calendar “Requests for Relief for Missed Academic Term Work”.

### **ACADEMIC ACCOMMODATION FOR RELIGIOUS, INDIGENOUS OR SPIRITUAL OBSERVANCES (RISO)**

Students requiring academic accommodation based on religious, indigenous or spiritual observances should follow the procedures set out in the RISO policy. Students should submit their request to their Faculty Office normally within 10 working days of the beginning of term in which they anticipate a need for accommodation or to the Registrar’s Office prior to their examinations. Students should also contact their instructors as soon as possible to make alternative arrangements for classes, assignments, and tests. <http://www.mcmaster.ca/policy/Students-AcademicStudies/Studentcode.pdf>

### **COPYRIGHT AND RECORDING**

Students are advised that lectures, demonstrations, performances, and any other course material provided by an instructor include copyright protected works. The Copyright Act and copyright law protect every original literary, dramatic, musical and artistic work, including lectures by University instructors

The recording of lectures, tutorials, or other methods of instruction may occur during a course. Recording may be done by either the instructor for the purpose of authorized distribution, or by a student for the purpose of personal study. Students should be aware that their voice and/or image may be recorded by others during the class. Please speak with the instructor if this is a concern for you.

### **EXTREME CIRCUMSTANCES**

The University reserves the right to change the dates and deadlines for any or all courses in extreme circumstances (e.g., severe weather, labour disruptions, etc.). Changes will be communicated through regular McMaster communication channels, such as McMaster Daily News, A2L and/or McMaster email.
