Contact Information

Instructor

Robert V. Fleisig, Ph.D., P.Eng.
Associate Professor
Walter G. Booth School of Engineering Practice
Email: robert.fleisig@mcmaster.ca
Office: ETB 503
Office hours: Mondays 1 PM – 2 PM
Twitter: @ENG1P03 @RobertFleisig

Instructor

Elizabeth Hassan, Ph.D., P.Eng.
Assistant Professor
Department of Mechanical Engineering
Email: hasae3@mcmaster.ca
Office: ETB 109
Office Hours: Thursdays 1:30 PM – 4:30 PM
Twitter: @Liz_Hassan

Course Coordinator

Jessica Anderson
Office: ETB 110
Office hours: 9 AM – 4 PM
Email: engic@mcmaster.ca

Instructional Assistant Interns (IAIs) & Teaching Assistants (TAs)

You will meet your IAIs and some of your TAs in tutorial. One of the following IAIs will be in your tutorial all term long:

Qichen Wang
Email: wangq32@mcmaster.ca
Office: ETB 120
Office hours: Wednesdays 11:30 AM — 12:30 PM
Thursdays 11:30 AM — 12:30 PM

Mostafa Okasha
Email: okashm@mcmaster.ca
Office: ETB 120
Office hours: Mondays 11:30 AM — 12:30 PM
Wednesdays 2:30 PM — 3:30 PM

Joshua Ekong
Email: ekongj@mcmaster.ca
Office: ETB 120
Office hours: Tuesdays 11:30 AM — 12:30 PM
Fridays 3:30 PM — 4:30 PM
For the final project only, one of the following TAs will be in your tutorial in addition to one from the above list:

Yu Ying yuy9@mcmaster.ca
Dakota Binkley binkld@mcmaster.ca
Jemma Jiang jiangm11@mcmaster.ca
Thomas Chowdhury chowdt2@outlook.com
Umatheny Umathева umathеu@mcmaster.ca
Cedric Woo wooc@mcmaster.ca
Rebecca Weatherall weather@mcmaster.ca
Madison Tang tangm8@mcmaster.ca

The following TAs will be marking and you may not seem them in tutorial:

Syed Abbas abbasss@mcmaster.ca
Emily Martin martie11@mcmaster.ca
Daniele Lo Faso lofasod@mcmaster.ca
Cecelia Varrasso varrassce@mcmaster.ca
Katya D’Costa dcostaka@mcmaster.ca
Venus Orig origv@mcmaster.ca
Yukie Ando andoy@mcmaster.ca
Dania Elzouki elzoukda@mcmaster.ca
Sara Imani moetakes@mcmaster.ca

Scheduling
- ENG 1P03 is scheduled for the Fall Term of the Fall/Winter Session 2017-2018.
- The course is comprised of 25 fifty minute lectures and 12 one hour and fifty minute tutorials scheduled by the Registrar. See https://mosaic.mcmaster.ca for dates, times, and locations. All lectures and tutorials are mandatory.

- Classes (lectures and tutorials) begin Wednesday, September 6th, 2017.
- The midterm is scheduled for Monday, October 2nd, 2017 at 7 PM. Locations will be announced shortly prior to the tests.
- The Registrar will schedule the final examination. See Mosaic > Student Centre > Academics Section > Exam Schedule for a date, a time, and locations later in the term.
- Due dates for work submitted outside of class will be posted on the Avenue Calendar and Avenue Dropbox.

Online Course Management
- Avenue (http://avenue.mcmaster.ca) will be used extensively in the course for team collaboration and communication, individual and team submission of work, sharing of course materials, grades, etc.

Course Objectives
By the end of the course students should be able to

- Given a client problem, apply the engineering design process to produce a defensible, well thought-out, and creative design;
- Contribute effectively as a member of an engineering design team;
- Make a professional presentation;
- Critique your peers’ work in a professional manner;

For the official description of ENGINEER 1P03 see 2016-2017 Undergraduate Calendar
- Explain the roles and responsibilities of a Professional Engineer in Canada;
- Identify ethical issues using the PEO Code of Ethics;
- Explain the health and safety responsibilities of a Professional Engineer; and
- Explain the problems, issues, and importance of sustainability with respect to engineering.

**Materials & Fees**
You are required to obtain the following from the bookstore.²

1. The customized textbook *Engineering Design*, ENG 1P03, Fall 2017. ISBN: 978-1-119-45722-0 Each member of the student team must purchase this item: one per person.

2. The customized textbook *Professional Engineering in Canada*, ENG 1P03, Fall 2017. ISBN: 9781323694596

The following is recommended but optional. This item can be obtained in the bookstore.

The course does not entail any fees. However, you will be required to construct a prototype for your final project. You must cover those expenses out of your own pocket.

You must cover printing costs and the costs associated with the poster out of your own pocket.

**Course Overview and Assessment**

**Quizzes, Midterm and Final Exam (40%)**

<table>

<tr>
<td>GQxx</td>
<td>Weekly Quizzes</td>
<td>4</td>
</tr>
</tbody>
</table>

The 25 lectures and readings will be assessed through three written examinations: ten (10) quizzes on Avenue, the midterm, and the final exam.

The quizzes will be available on Avenue and will evaluate the required readings. Note that the quizzes are not equally weighted. At the end of the term, the **lowest quiz mark will be dropped**.

The midterm will be held early in the term and will cover lectures and readings leading up to the test.

The final exam will be held during the final examination period. If any of the individual items (except the final exam) is missed, its weight will be redistributed onto the remaining items provided an approved MSAF has been received by the Course Coordinator otherwise a grade of zero will be recorded for the missed work.

² Also see Campus Bookstore Textbook List
If the final exam is missed a grade of ‘F’ will be recorded for the course. The final exam may be deferred with the permission of the Associate Dean (Academic).

</tbody>
</table>

Course Coordinator otherwise a grade of zero will be recorded for the missed work.

All the above items will be announced in tutorial and/or available on Avenue or the Custom Courseware.

Any late project work will be assessed a grade of zero.

A final peer evaluation will be used as input to the report and proposal grades.

Policy Statements

Email Etiquette

- When contacting university faculty and staff, always send your email from your McMaster University account. If you use another email address such as Gmail your email will be ignored because you cannot be positively identified as a student at McMaster University.
- When contacting ENG 1P03 faculty and staff via email, always preface the subject with “ENG 1P03:” otherwise your email may not be read in a timely manner.
- Always begin your email with a salutation. For example, “Dear Dr. Fleisig”.
- Always end your email with your full name and student number.

Missed Work

Should any work be missed with valid reason, a student may apply for special consideration using the Missed Work Form Self Reporting Tool available in MOSAIC Student Centre (in the drop down menu under Academics) (MSAF). For policies that govern the MSAF system, please refer to MOSAIC. If the MSAF Form is issued then the student must obtain an approval and a course of action from the Course Coordinator.

Any MSAFs that are not sent to engic@mcmaster.ca will be ignored. Any MSAF that does not reference the correct grade key (i.e., ‘GD1a’ for the Avenue Profile) associated with the missed work will be ignored.

Lecture and Tutorial Sections

All changes to lecture and tutorial sections must be made via MOSAIC. If there are no seats available you will have to speak with Ms. Sally William, Student Advisor (Ext. 24646, JHE H301, willsal@mcmaster.ca).

It is the responsibility of the student to ensure that the tutorial section you attend is the section you are a member of. Failure to do so may result in missed work.

Academic Integrity

You are expected to exhibit honesty and use ethical behaviour in all aspects of the learning process. Academic credentials you earn are rooted in principles of honesty and academic integrity.

Academic dishonesty is to knowingly act or fail to act in a way that results or could result in unearned academic credit or advantage. This behaviour can result in serious consequences, e.g., the grade of zero on an assignment, loss of credit with a notation on the transcript (notation reads: “Grade of F assigned for academic dishonesty”), and/or suspension or expulsion from the university.

It is your responsibility to understand what constitutes academic dishonesty. For information on the various types of academic dishonesty please refer to the Academic Integrity Policy, located at www.mcmaster.ca/academicintegrity.

The following illustrates only three forms of academic dishonesty:

1. Plagiarism, e.g., the submission of work that is not one’s own or for which other credit has been obtained.
2. Improper collaboration in group work.
3. Copying or using unauthorized aids in tests and examinations.

**Turnitin.com**

In this course we will be using a web-based service (Turnitin.com) to reveal plagiarism. Students will be expected to submit their work electronically to Turnitin.com and in hard copy so that it can be checked for academic dishonesty. Students who do not wish to submit their work to Turnitin.com must still submit a copy to the Instructor. No penalty will be assigned to a student who does not submit work to Turnitin.com. All submitted work is subject to normal verification that standards of academic integrity have been upheld (e.g., on-line search, etc.). To see the Turnitin.com Policy, please go to http://turnitin.com/en_us/about-us/privacy-center/usage-policy.

**Avenue to Learn**

In this course we will be using Avenue to Learn. Students should be aware that, when they access the electronic components of this course, private information such as first and last names, user names for the McMaster email accounts, and program affiliation may become apparent to all other students in the same course. The available information is dependent on the technology used. Continuation in this course will be deemed consent to this disclosure. If you have any questions or concerns about such disclosure please discuss this with the course Instructor.

**Course Modification**

The Instructor reserves the right to change dates and/or deadlines etc. for any or all course elements in the case of an emergency situation or labour disruption or civil unrest/disobedience, etc.

**Appeals**

If an appeal becomes necessary, the student will initiate it. The successive levels for an assignment or tutorial appeals are:

1. Teaching Assistant responsible for the grade,
2. Instructor,
3. Associate Dean, and

For an appeal of an exam/test grade, the appeal process begins with the Instructor.

All levels of appeal shall be by the submission of a written request that is signed and dated (an email is not suitable). Each step of the appeal procedure should be completed as soon as possible, but not later than ten calendar days from the date of the action or decision giving rise to the appeal.

Students who are repeating the course for any reason shall repeat it in its entirety, unless an exception is granted. Application for exception is to be submitted in writing to the course Instructor within the first week of lecture.

**Discrimination**

The Faculty of Engineering is concerned with ensuring an environment that is free from all adverse discrimination. If there is a problem that cannot be resolved by discussion among the persons concerned, then individuals are reminded that they should contact the Engineering 1 Director, the Sexual Harassment Office, or the Human Rights Consultant, as soon as possible.
Health and Safety
The Faculty of Engineering is committed to McMaster’s University Workplace and Environmental Health and Safety Policy which states: “Students are required by University policy to comply with all University health, safety and environmental programs”.

It is your responsibility to understand McMaster University Workplace and Environmental Health and Safety programs and policies. For information on these programs and policies please refer to McMaster University Environmental and Health Support Services Occupational Safety Risk Management Manual at: [http://www.workingatmcmaster.ca/rmm/](http://www.workingatmcmaster.ca/rmm/).

It is also your responsibility to follow any specific Standard Operating Procedures (SOPs) provided for some of the experiments and the laboratory equipment.

Ethics Protocol
The two principles underlying integrity in research in a university setting are these: a researcher must be honest in proposing, seeking support for, conducting, and reporting research; a researcher must respect the rights of others in these activities. The policy is included to ensure that students understand and uphold a high level of ethical practice when performing stakeholder research or any sort of information collection.

Research misconduct is defined to include the following in proposing, conducting or reporting research:

- Misrepresentation, fabrication, or falsification of data;
- Plagiarism, including plagiarism of one’s own work;
- Abuse of confidentiality with regard to information and ideas taken from manuscripts, grant applications, or discussions held in confidence;
- Other kinds of misconduct, such as: violation of the regulations of the granting bodies; improper use of funds, equipment, supplies, facilities, or other resources; failure to respect University policies on use of human subjects or animals; falsification or misrepresentation of credentials;
- Failure to reveal any material conflict of interest to the sponsors or to those who commission work or when asked to undertake reviews of research grant applications or manuscripts for publication, or to test products for sale or distribution to the public; or
- Failure to reveal to the University any material financial interest in a company that contracts with the University to undertake research, particularly research involving the company’s products. Material financial interest includes ownership, substantial stock holding, a directorship, significant honoraria or consulting fees but does not include routine stock holding in a large publicly traded company.

The University demands integrity in the conduct of research. It expects ethical behaviour in respect to authorship and appropriate acknowledgement of research contributions. It is recognized that there are varying degrees of severity in violation of standards of research conduct. Further, there will be cases where disputes may arise which do not clearly involve misconduct but rather are differences of opinion as to what is considered ethical behaviour.
In cases where research misconduct is at issue, the University will take action as described in the document, “Procedures for Inquiries and Hearings Regarding Allegations of Misconduct in Research”, unless the individual being accused is a student carrying out research as part of his or her academic programme. In that case, action will be taken as described in the document, “Senate Resolutions on Academic Dishonesty”. The University will impose sanctions on those who have committed research misconduct.
