MPS 11: Unique YOU Perry

View toward	Perry's scale			
	1-2	3	4	5
Knowledge	All knowledge is known.	Most is known but there are some fuzzy areas.	Some is known; no certainty; anything goes.	Different knowledge is needed in different contexts.
Answers to problems	Either right or wrong.		My answer is as good as yours.	No absolute truth; answers are relative but good answers wish meet the conditions are known.
Teacher, tutor, instructor	Instructor and books know the truth.	Role is to tell us how to learn.	Role is to model; but they can be complexly disoriented.	Role is to be a guide and source of expertise.
Student's role	To receive.	To work hard and to learn how to learn.	To think for yourself; independent thought is good.	To identify the conditions; to choose the best ideas.
Assessment	Worried if exam. Some is fuzzy. Ask, "What do you expect?" Expect bad grades with bad person.	It is the key issue. Quantity and fairness. Hard work = good mark.	Independent ideas equal good mark. Can separate measurement of work from personal work.	Seek positive and negative feedback on assessment.
Preferred task	Memorize definitions.	Compare and contrast.	Analysis.	Synthesize. Relate ideas between contexts.
Difficult task	Decide which of two conflicting authorities is correct. Tell me.	Focus on the "process" and not on the answer.	Provide evidence to support claims. Learning to listen to authority again.	Decide on which conditions apply.

So what?

- want all to evolve to level 5
- could identify reasons for difficulty in course
- related to Bloom & MPS 3, self confidence.

MPS 11: Unique You

Strategic:

- see qualifications as main reason for learning
- find out details of assessment & try to impress teachers
- competitive. Self confident & driven by hope for success

Memorize:

- rely on rote learning
- focus on what is defined in the calendar & just what teacher expects
- may lack self-confidence & have test anxiety
- not willing to seek relationships between ideas; focus on facts

Meaning:

- actively seek to link what they study to real life
- examine evidence critically & use it cautiously
- actively relate new knowledge to previous
- want to learn for its own sake
