

## **Post-doctoral Fellow Position**

Medical Imaging Physicist

Department of Radiology, Johns Hopkins University

Johns Hopkins University has a post-doctoral fellow position currently open for medical imaging research projects. The candidates will be exposed to a unique training and research environment in a variety of imaging modalities. The post-doctoral research fellow will have access to start-of-the-art imaging systems and a high-end computer cluster. Applicants should have a Ph.D in Physics, Engineering, or a related field. Strong analytical, programming, and experimental skills are desirable. Details of research projects can be find at:

<https://www.hopkinsmedicine.org/radiology/research/divisions/medical-imaging-physics/research/>

Interested individuals should send a C.V., letter of interest, and contacts of three references by email to Dr. Yong Du ([duyong@jhu.edu](mailto:duyong@jhu.edu)), Assistant Professor of Radiology.
